

Speaker's Profile

-Akihiro C. Yamashita-

Speaker's Name	Akihiro C. Yamashita	Country	Japan	
Organization	Shonan Institute of Technology	Department	Human and Environmental Science	
Education	<p>1991: Department of Chemical Engineering, Graduate School of Engineering, The Univ. of Texas at Austin (Ph.D. in Chemical Engineering)</p> <p>1980: Department of Applied Chemistry, School of Science and Engineering, Waseda Univ., Tokyo, Japan (B.S. in Engineering)</p> <p>1976: Tokyo Metropolitan Takehaya Senior High School, Tokyo, Japan</p>			
Experience	<p>2009: Department Chair, the same department & institute</p> <p>2004: Professor, the same department & institute</p> <p>1999-2004: Associate Professor, Department of Materials Science and Engineering, College of Engineering, Shonan Institute of Technology, Kanagawa, Japan</p> <p>1991-1999: Assistant Professor, Department of Biochemical Engineering and Science, College of Information Engineering, Kyushu National Institute of Technology at Iizuka, Fukuoka, Japan</p> <p>1987-1991: Research Associate, The Univ. of Texas at Austin, Austin, Texas, USA</p> <p>1980-1986: Research Associate, Department of Applied Chemistry, Waseda Univ., Tokyo Lecturer, School of Medicine, Kitasato University, Kanagawa, Japan Senior Researcher, Department of Research, Yokohama Dai-ichi Hospital, Kanagawa, Japan</p>			
Main Specific Publication	<ul style="list-style-type: none"> - Yamashita AC, Fujita R, Tomisawa N, Jinbo Y, Yamamura M: Effect of packing density of hollow fibers on solute removal performances, Hemodial Int, 13, S2-S7, 2009 - Yamashita AC: Quantification of peritoneal transport; Peritoneal Dialysis International 28 Suppl3 (June, 2008), S139-S143, 2008 - Yamashita A, Hidai H, Kumano K, Sakai T: Comparison of intermittent and continuous therapies by two urea kinetic models, Prog. in Artif. Organs 1985, edited by Nose Y, Kjellstrund C, and Ivanovich P, pp.271-274, ISAO Press, Cleveland, 1986 			
Summary	<p>Dr. Yamashita was born in Ibaraki Prefecture near Tokyo in 1957. After finishing his undergraduate work in Waseda University in Tokyo, he worked for a hospital as a biomedical researcher. He then went to the United States, seeking for an advanced degree of Ph.D. under the directions of Drs. Popovich and Moncrief. He has published more than 90 papers and made more than 700 presentations & lectures. He is currently serving as a professor and a department chair in his university, the Shonan Institute of Technology.</p>
