Parenteral Nutrition Safe Practices: Results of the 2003 American Society for Parenteral and Enteral Nutrition Survey. Journal of Parenteral and Enteral Nutrition (JPEN), 2006; 30: 259 - 265. 			
Summary	I have been a physician nutrition specialist for 20 years, practicing nutrition support consultation, teaching, and writing policy. I am the former Chair for physician board certification in Nutrition Support. My current research is focused on ways to attenuate the impact of systemic inflammation in chronic disease, such as occurs in patients on renal replacement therapy.
