

Speaker's Profile

-Hung-Chun Chen-

| | | | | |
|----------------------------------|---|-------------------|---|---|
| Speaker's Name | Hung-Chun Chen | Country | Taiwan |  |
| Organization | Kaohsiung Medical Univ. | Department | Department of Internal Medicine, Division of Nephrology | |
| Education | 2000: Ph.D., Kaohsiung Medical Univ., Taiwan 1979: M.D., Kaohsiung Medical College, Taiwan | | | |
| Experience | 2000-Present: Chief, Department of Nephrology, Kaohsiung Medical Univ. Hospital 2001-Present: Professor of Medicine, Department of Nephrology, Kaohsiung Medical Univ. 2009: Director, Department of Renal Care, School of Medicine, Kaohsiung Medical Univ. 2009: President, 3rd Asian Forum of CKD Initiative (AFCKDI 2009) 2002: Doctor of Medical Science, Juntendo Univ., Tokyo, Japan - Executive Director, Taiwan Society of Nephrology | | | |
| Main Specific Publication | <ul style="list-style-type: none"> - Tu ST, Chang SJ, Chen JF, Tien KJ, Hsiao JY, Chen HC, Hsieh MC: Prevention of diabetic nephropathy by tight target control in an Asian population with type 2 diabetes mellitus: a 4-year prospective analysis. Arch Intern Med 170:155-161, 2010. - Chen SC, Liu WC, Lee CH, Chang JM, Chen HC: Nephrotic syndrome complicated by life-threatening pulmonary embolism in an adult patient. Kaohsiung J Med Sci 26:89-95, 2010. - Tsai MJ, Chen HC: Calcified cysts in the upper abdomen. Cleve Clin J Med 77:96-97, 2010. - Chen SC, Hwang SJ, Tsai JC, Liu WC, Hwang SC, Chou MC, Lin MY, Chang JM, Chen HC: Early nephrology referral is associated with prolonged survival in hemodialysis patients even after exclusion of lead-time bias. Am J Med Sci 339:123-126, 2010. - Chen SC, Chang JM, Hwang SJ, Chen JH, Lin FH, Su HM, Chen HC: Comparison of ankle-brachial index and brachial-ankle pulse wave velocity between patients with chronic kidney disease and hemodialysis. Am J Nephrol 29:374-380, 2009. - Tien KJ, Hsiao JY, Hsu SC, Liang HT, Lin SR, Chen HC, Hsieh MC: Gender-dependent effect of ACE I/D and AGT M235T polymorphisms on the progression of urinary albumin excretion in Taiwanese with type 2 diabetes. Am J Nephrol 29:299-308, 2009. - Kuo HT, Chen TW, Chen HC: Heat shock response protects human peritoneal mesothelial cells from peritoneal dialysate-induced oxidative stress and mitochondrial injury. Nephrol Dial Transplant 24:1799-1809, 2009. - Chen SC, Chang JM, Hwang SJ, Tsai JC, Wang CS, Mai HC, Lin FH, Su HM, Chen HC: Significant correlation between ankle-brachial index and vascular access failure in hemodialysis patients. Clin J Am Soc Nephrol 4:128-134, 2009. | | | |
| Summary | Prof. Chen has published more than 200 papers. His major interest involved reactive oxygen species, glomerulonephritis, diabetic nephropathy, and care of ESRD and CKD patients. | | | |
